ROYAL AUSTRALASIAN COLLEGE OF DENTAL SURGEONS

CONTINUING PROFESSIONAL DEVELOPMENT

CPD for OMS STANDARD

Last Updated: 1 July 2019
INTRODUCTION

The Royal Australasian College of Dental Surgeons (RACDS) is the specialist medical and dental college accredited by the Australian Medical Council, the Australian Dental Council, the Medical Council of New Zealand and the Dental Council of New Zealand to set the Continuing Professional Development (CPD) standard for Oral Maxillofacial Surgery (OMS).

CPD for OMS is a continuing professional development standard designed to facilitate participants’ planning, monitoring and recording of continuing medical and dental education activities.

CPD for OMS incorporates the concepts of continual learning and encourages participants to consider their learning needs, connect their learning needs to suitable education activities, obtain credit for the activities and contemplate their progress and the activities in a way that may change current practice and guide future development.

KEY PRINCIPLES

The RACDS CPD for OMS standard is based on a three-year cycle, with triennial and annual pro-rata requirements.

It is the responsibility of all Oral and Maxillofacial Surgeons to make sure they meet the RACDS CPD for OMS Standard and the OMS Continuing Professional Development Mandatory Compliance Policy in order to maintain registration.

CPD activity must align with the requirements of the four categories of teaching, assessing and research; group learning activities; practice review; and self-education and participation as outlined in this Standard.

All participants are expected to produce evidence of compliance with the RACDS CPD for OMS Standard if randomly selected for audit by the College. Participants should record, monitor and provide evidence of their CPD activities in accordance with the CPD OMS Compliance Framework (page 5-6).

REQUIREMENTS

The current CPD triennium is from 1 January 2019 to 31 December 2021.

Participants are required to gain 150 points per triennium in order to obtain a Certificate of CPD Compliance. Participants must also meet annual pro-rata requirements for each of the categories across each calendar year to obtain an Annual Statement of Participation. It is also a requirement to complete a CPD Learning Plan and to log CPD using the RACDS CPD Tracker. The CPD Learning Plan will be mandatory from 1 January 2020.

Participants are required to obtain CPD points per triennium and pro-rata each calendar year across the following four categories:

- Category 1 – Teaching, Assessing and Research
- Category 2 – Group Learning Activities
- Category 3 – Practice Review
- Category 4 – Self Education and Participation

Refer to the CPD OMS Compliance Framework at the end of this Standard.
COMPLIANCE

To be compliant participants must obtain 150 points per triennium across the following categories in accordance with the CPD OMS Compliance Framework:

- A minimum of 60 points per triennium must be achieved by completing activities from Categories 1 and 2.
- A minimum of 30 points per triennium must be completed from Category 3.
- The additional 60 points may be obtained from additional activities in Categories 1, 2 or 3 or from Category 4.

Refer to the OMS Continuing Professional Development Mandatory Compliance Policy for further information on compliance, exemptions from participation, Fellows residing overseas and the process for non-compliancy.

CPD LEARNING PLAN

A CPD Learning Plan will be mandatory from 1 January 2020.

The CPD Learning Plan forms the basis for planning, structuring, and monitoring of continuing medical and dental education activities. It is a requirement to have an active CPD learning plan for the CPD triennium, which can subsequently be updated over the period as required.

CPD for OMS supports the tenet of continual learning and encourages participants to consider their learning needs, connect their learning needs to suitable education activities, obtain credit for the activities and contemplate their progress and the activities in a way that may change current practice and guide future development.

OMS Fellows should apply these concepts to the development of their CPD Learning Plan for each triennium.

- **Consider your learning needs**
  Participants should consider their current learning needs and create a plan for future involvement. Giving careful consideration to the style of learning which the participant is most receptive to is helpful (for example, auditory – lectures, interactive - group discussion, tactile – workshops and hands on activities).

- **Connect needs with activities**
  Participants should actively seek suitable professional development activities and participate in those which fulfil identified learning needs.

- **Credit activities online**
  The online RACDS CPD Tracker must be used by participants to keep a current log of all activities completed. The web page allows participants to record the number of hours and easily calculate the credit points.

- **Contemplate your learning experiences**
  Research suggests that effective continuing professional development involves a participant critically examining learning experiences and consciously determining how the experience can strengthen the quality and effectiveness of their work.

  CPD for OMS involves an online recording mechanism which allows participants to enter their completed activities, in accordance with the CPD OMS Compliance Framework and identify areas in which they may need to concentrate future learning efforts.
DOCUMENTATION

The *CPD for OMS Standard* requires maintenance of a portfolio, which facilitates the documentation of the CPD learning plan, completed learning activities, and personal evaluation of CPD, as well as providing a record of CPD participation for audit purposes.

For more information please refer to the ‘Verification’ column in the CPD OMS Compliance Framework.

AUDIT AND VERIFICATION

A random sample of ten percent of participants are selected to be audited within three months of Certificates of CPD Compliance being issued by the College.

Participants are expected to maintain evidence of their involvement in CPD for the first five years after the triennium; in case they are in the audit sample. Fellows may be subject to additional periods of record retention requirements from regulatory bodies.

Unless selected in the audit sample, participants are not required to submit supporting documentation to substantiate credit points and be issued the Certificate of CPD Compliance.
